About LMNTRTI

Faculty

Faculty of Allied Health Sciences

LMNTRTI works around education, practical training and research related to Indian Neurotherapy, Yogic Science and allied wellness-oriented learning.

Its academic approach places emphasis on application-based learning, practical competence, documentation, professional discipline and continuous learning.

What Students Build

- ✓ Foundational knowledge of human anatomy & physiology
- ✓ Understanding of the nervous system and Indian Neurotherapy
- ✓ Yoga, pranayama, relaxation and wellness skills
- ✓ Case documentation, communication and professional conduct
- ✓ Research orientation, project work and entrepreneurship

02 ACADEMIC PROGRESSION

Academic Progression & Exit Ladder

The progression below follows the ladder pattern supplied from the Faculty of Skills & Vocational Studies reference and is presented as an academic progression framework. Actual awards and exits remain subject to the applicable University rules.

01

**Diploma**

Foundation-level vocational qualification

1 Year

₹ ₹70,000

02

**Advanced Diploma**

Progressive practical & skill development

2 Years

₹ ₹60,000 / year

03

**B.Voc. — 3-Year Milestone**

Bachelor-level academic progression point

3 Years

Academic ladder milestone

04

**B.Voc. Honours — Flagship Programme**

Yogic Science (Indian Neurotherapy)

4 Years / 8 Semesters

₹ ₹30,000 / semester

05

**PG Diploma**

Postgraduate vocational specialization

1 Year

₹ ₹70,000

06

**Master / M.Voc.**

Advanced postgraduate study

2 Years

₹ ₹70,000

Flagship academic focus: The detailed student programme booklet supplied for this brochure describes the B.Voc. Yogic Science (Indian Neurotherapy) programme as **4 years / 8 semesters**, with multiple academic and skill components.

03 DIPLOMA

Diploma in Yogic Science & Indian Neurotherapy

Duration
1 Year

Indicative Eligibility
10+2

Annual Fee
₹70,000

Learning Focus

- ✓ Foundations of Yogic Science
- ✓ Human anatomy & physiology basics
- ✓ Introduction to nervous system
- ✓ Indian Neurotherapy foundations
- ✓ Basic yoga, pranayama and relaxation

What You'll Learn

- ✓ Observation and basic wellness assessment
- ✓ Communication and professional conduct
- ✓ Practical demonstrations and supervised learning
- ✓ Documentation and case-oriented learning
- ✓ Examination / practical assessment as notified

Programme format: Theory classes are conducted online. Practical training is conducted at designated practical / learning centres as per the academic schedule.

Who May Consider This Programme?

Students, wellness practitioners and learners seeking structured introductory vocational education in Yogic Science and Indian Neurotherapy may consider the Diploma, subject to the applicable admission rules.

B.Voc. Honours in Yogic Science (Indian Neurotherapy)

Holistic
Learning
for a Healthier
Tomorrow

A BLEND OF KNOWLEDGE, PRACTICE AND REAL-WORLD EXPOSURE

Duration

4 Years

Semesters

8

Per Semester Fee

₹30,000

The supplied University programme booklet combines academic knowledge, vocational skills, practical training, human anatomy and physiology, neuroscience, Indian Neurotherapy, therapeutic yoga, research, project work and workplace / industry exposure.

Academic Components

- ✓ Theory classes
- ✓ Practical classes
- ✓ Skill development
- ✓ Semester projects
- ✓ Continuous assessment
- ✓ Semester examinations

Programme Design

- ✓ Theory classes — online
- ✓ Practical training — designated practical / learning centres
- ✓ Theory examination — online, as notified
- ✓ Practical examination — notified centre / University location, as applicable
- ✓ Workplace / industry exposure — 15 days per semester as prescribed

The programme is vocational higher education in Yogic Science and Indian Neurotherapy. It is not an MBBS, BAMS, BHMS, BPT, Nursing or other regulated medical degree.

10 PRACTICAL TRAINING

Practical Training, Workshops & Study Material

HANDS-ON EXPERIENCE FOR REAL-WORLD LEARNING

 PRACTICE
SKILLS
GAIN
CONFIDENCE

Residential Practical Workshop

A residential practical programme may be organised approximately once every three months, normally for **2-3 days**.

- ✓ Intensive practical demonstrations
- ✓ Revision and supervised practice
- ✓ Case-based learning
- ✓ Viva / demonstration preparation
- ✓ Faculty / trainer interaction

Workshop charge:
approximately ₹3,000 – ₹5,000
per workshop, communicated
before the relevant session.

Learning & Field Exposure

- ✓ Theory classes through online learning mode
- ✓ Practical learning at designated centres
- ✓ 15 days of workplace / industry exposure per semester, as prescribed
- ✓ Project work linked with the academic structure
- ✓ Practical assessment and viva as notified

Digital Study Material

Course study material / books are provided in **PDF format through Student Login**.
No physical printed course books are included as a standard provision.
Students are expected to prepare and maintain their own notes.

Additional Reading — Optional

Hindi: निर्धारित syllabus के अतिरिक्त यदि कोई विद्यार्थी Indian Neurotherapy, Yogic Science, Yoga, Anatomy, Physiology, Wellness या अन्य संबंधित विषयों का अतिरिक्त अध्ययन करना चाहता है, तो वह अपनी रुचि और आवश्यकता के अनुसार market/reference books स्वयं खरीद सकता है। यह वैकल्पिक है और programme fee में शामिल नहीं है।

Academic support, practical training and wellness education roles.

Wellness Organisations

Wellness centres, training centres and related organisations.

Research

Research orientation, projects, academic activities and evidence-based learning.

Entrepreneurship

Wellness-focused entrepreneurship and start-up development.

Important Professional Clarification

This programme provides vocational higher education in Yogic Science and Indian Neurotherapy. It should **not** be represented as an MBBS, BAMS, BHMS, BPT, Nursing or other regulated medical degree.

Completion of the programme does not, by itself, authorise a graduate to diagnose diseases, prescribe medicines, perform medical procedures, or represent themselves as a licensed medical practitioner where separate statutory registration or professional qualification is required.

Graduates should work within the scope permitted by applicable laws, University regulations and professional requirements.
